#### AFFAIRS IN BROOKLYN.

BEAT HER RIVAL WITH A STRAP. A BROOKLYN WOMAN EMPHATICALLY PROTESTS AGAINST HER HUSBAND'S ATTENTION TO ANOTHER WOMAN.

Mrs. Margaret Brady, of No. 96 Wythe-ave., Brooklyn, lived happily with her husband until a month ago, when a friend told her that he was frequently walking with an attractive young woman. Mrs. Brady said nothing to her husband, but watched A week ago Brady left the house, and Mrs. Brady suspected that he was going to meet the woman, and followed him. When North Seventh-st. was reached Brady entered a house and soon reappeared with a young woman, going toward Drisgs-ave. Mrs. Brady did not follow her husband further, but returned to her home and walted for him to rebut returned to her home and waited for thin to te-turn. When he did so, she told him of what she had seen, and begged him for their children's sake to cease his visits. This Brady promised to do. On Friday evening Brady told his wife that he

was going to visit some friends. Mrs. Brady's suspicions were again aroused, and, arming herself with a heavy strap, she started after him. At North Twelfthest, and Driggs-ave. Mrs. Brady saw her his-band meet the young woman. She ran up behind them and brought the strap across the faces and shoulders of the woman and her nusban. The latter ran away, and the wife continued her assault on the woman, who, unable to escape, turned upon her assaliant, and a hair-pulling match followed. Finally the young woman ran away and Mrs. Brady returned to her home, where she met her husband, who demanded to know why she had followed him. He then struck his wife and left the house. Mrs. Brady ran after him and saw her husband again enter the yard of the home of the woman whom she had whipped. A lively time followed, and Policeman Owens, of the Fifth Precinct, arrested Brady on a charge of disorderly conduct.

In court Saturday Mrs. Brady said she was willing to forsive her husband if he would discontinue his visits to the young woman. She said they had seven children, and had suffered much during had seven children, and had seven children, and had seven during had seven children, and had seven children and seven children and seven children and had seve was going to visit some friends. Mrs. Brady's sus-

DR. TALMAGE'S ANNIVERSARY SERMON. Dr. Talmage preached his twenty-fifth anniversary n as pastor of the Tabernacle yesterday morning. The church was crowded. In the sermon Dr. Talmage reviewed his ministry in the city, and de-scribed what his church had done in the three successive buildings which have been occupied by the congregation since 1869, when he began preaching in

cossive buildings which have been occupied by the congregation since 1869, when he began preaching in the old Central Presbyterlan Church. He spoke hopefully of the future of the Tabernacle. Next Sunday he will preach for the last time before starting on his trip around the world. Announcement was made of the city and the international receptions to take place on Thursday and Friday evenings in the Tabernacle. Inness 15th Regiment Band will furnish the music, and the flags of all nations which read Dr. Talmage's sermons will be used in decorating the church.

Mayor Schieren will preside at the meeting on Thursday evening. The Rev. Dr. James M. Fatrar will offer prayer. Addresses will be made by John Winslow, the Rev. Dr. & Gregg and Carson, representing the Broeklyn Presbytery. David A. Hoody, Professor R. Ogden Doremus, the Rev. Dr. Roche, the Rev. Dr. A. C. Dixon, the Rev. Dr. Roche, the Rev. Dr. A. C. Dixon, the Rev. Dr. Roche, the Rev. Dr. Bosia Mendes, Bernard Peters, S. V. Rabbi F. De Sola Mendes, Bernard Peters, S. V. White and others. On Friday night ex-Secretary B. F. Tracy will preside. The opening prayer will be by Chaplain W. H. Milburn, of the United States Senate. Addresses will be made by William M. Evarts, Chauncey M. Depew, Senator Walsh, of Georgia; Prince Cantacuzene, the Russian Ambassador; Colonel Frederick D. Grant, the Rev. Dr. C. L. Thompson, Joseph C. Hendrix, Senator Danleis, of Virginia; Senator Manderson, of Nebraska; the Rev. Dr. A. E. Kittredge, William Ziegler and others.

FELL UNDER A TROLLEY-CAR. Charles McGuire, who is employed as a nurse in the County Insane Hospital in Clarkson-st., narrow-y escaped a fatal accident by falling under a trolleycar at Flatbush and Atlantic aves., late Saturday car at Flatbush and Atlantic aves. late Saturday night. He attempted to get on the front platform of Car No. 1.128 in Flatbush-ave, in the rain, and slipped from the step. Both of his legs went under the car, and the forward wheel passed over them and they were broken below the knees. One was so badly mutilated that it had to be amputated. He was taken by Dr. Shattuck to the Brooklyn Hospital. The motorman in control of the car was arrested.

A BROKEN WHEEL DELAYED TRAFFIC. The breaking of one of the wheels connected with the machinery in the engine-room on the Brooklyn the machinery in the engine-room on the Brooklyn side of the big Bridge about 2 o'clock yesterday afternoon, caused the cable to stop running, and a jam at both ends of the Bridge ensued. Those in the engine-room had narrow escapes, as the fragments of the wheel flew in all directions when it broke, but fortunately hit no one. In half an hour the crush at the Bridge ends was tremendous, and people were clamoring for trains. F. D. Hart, the engineer, seeing that it would take some time to replace the wheel, began running trains with engines, and until the cable was again running the pressure was somewhat relieved by this means. Traffic was resumed about 3 o'clock.

GATHERED ABOUT THE TOWN.

Major Peter H. McNuity, of Avenue D and the Ocean Parkway, reported to the police yesterday that two valuable St. Bernard dogs had been stolen from his barn. They answer to the names of Bis-marck and Princess, and are valued at \$2,000.

The exhibition of the Sella collection of photo graphs of mountain scenery was open yesterday afternoon in the Art Building in Montague-st. The last opportunity to see it will be afforded to-day, as the exhibition will be closed this evening. Garrett P. Serviss will lecture on "The Astro-

nomical Progress of the Year" before the Department of Astronomy of the Brooklyn Institute this Dr. Joseph H. Hunt will lecture on "The Moun-

tains of Mexico" before the Department of Geog-raphy of the Institute of Arts and Sciences in Art Association Hall on Friday evening. The lecture will be illustrated with photographs taken by Dr. Hunt in Mexico. The spring exhibition of the Brooklyn Art School

will be opened on Thursday in the Art Gallery in Montague-st., and will be continued for a week. Mayor Schleren is to speak in both English and

German on Decoration Day at Cypress Hills Ceme-Patrick Campbell, Police Superintendent, has gone to St. Louis to attend the National Convention of

Police Superintendents to-morrow. The Rev. Sylvester Malone, pastor of Sts. Peter and Paul's Church, in Wythe-ave, near South Sec-ond-st, and Regent of the State University, will be seventy-three years old to-morrow, and the children

of the schools attached to the church will celebrate the occasion with an entertainment in the Amphion Theatre in the afternoon. In August Father Malone will celebrate his golden jubilee, the fiftieth anniversary of his priesthood. The big roof of the new 13th Regiment Armory is being repainted; the light color now used is a great

improvement on the dull red which was put on a few weeks ago. The use of the trolley on Nostrand and Tompkins

aves, shortens the time to Prospect Park for uptown residents nearly one-half. The Brooklyn Democratic Club will have a meet-

ing at No. 201 Montague-st. on Thursday evening. The rain yesterday morning brought out a deeper tint of green in Prospect Park, and the thousands who visited the great pleasure-ground in the afterpoon enjoyed the beautiful scene to the utmost.

NEW-YORK'S REFORM BILLS.

"A SOP TO THE REFORMERS."

From The New-York Times.

The action of Governor Flower in signing the bill which will compel the Dock Board of this city to let all the work of construction to the "lowest responsible bidder" is not easy to understand. Perhaps, having made up his mind to veto the most important measure of municipal reform before him he concluded to throw a sop to the "reformers" in the shape of an approval of the Sheriff's Salary bill and the Dock Contract bill, or possibly, to his somewhat opaque mind, it may have appeared that the latter would be generally accepted as a measure in the interest of economy, and therefore likely to be popular. We are inclined, however, to credit him with a little more mental lucidity, and to presume that he signed the Dock bill because it was not a measure of reform except in appearance, and was not so objectionable to certain political "influences" as was pretended. From The New-York Times.

FLOWER BEGAN WELL BUT -

From The Evening World.

Governor Flower began well yesterday by signing the Sheriff Salary and Dock Department Contract bills. He ended as badly as he knew how by killing the Mayor's Power of Removal bill. It is no wonder that the State Executive felt impelled to take to the woods—or to Caledonia—when the news of his betrayal of New-York came out.

A DIFFICULT STRADDLE. From The New-York Recorder.

Governor Flower, in signing two of the great re-form bills for the government of this city enacted by the late Legislature, won the approval of the majority of the people of the State. In vettong the third of the seemsures he pleased Tammany Hall and offended friends of honest government in this city and throughout the entire Commonwealth. He should have signed the three bills.

# Keep Pace

with the progress of domestic science. Use Cleveland's Baking Powder.

still large enough to be attractive, though small in comparison with what it was before. The county instead of the Sheriff should have the benefit of these fees after that official has been given reasonable compensation for his services. The average Sheriff of New-York could not earn half of \$22,000 in any other business.

#### YONKERS.

In the mail received at Police Headquarters Saturday was an anonymous letter containing a goldplated bracelet and a gold-plated breastpin, with stone in the centre. had been found in the street three years ago.

There was another trolley-car accident of Riverdale-ave. line Saturday afternoon. Patrick Brown and his eldest daughter, who live at No. 79 Riverdale-ave, were driving home from Van Cort-landt Park, where they had been to witness the drill of the 71st Regiment. As the carriage turned out to avoid a wagon which was standing at the side of the road it was struck by a trolley car which came up behind. Mr. Brown and his daugh-ter were thrown to the asphalt pavement. Mr. Brown, who is sixty years old, was not seriously hurt, but his daughter was severely bruised and it is feared is internally injured. Frank Bretnall, the motorman, says the carriage turned to the track only a few feet in front of the car. He reversed the motor, but the distance was too short to avoid a collision. William Davis, twenty-three years old, of Spuyten Duyxil, was stabbel eight times by an unkown man on Saturday night, and is now at St. Joseph's Hospital in a precarious condition.

#### NEW-JERSEY.

#### ORANGE.

This evening the members-elect of the Orange Common Council will take their seats, and for the first time in many years the Republicans will be in control of the city of Orange. Since the election the Republicans have held frequent conferences, have settled on their general policy, and to a large extent on the changes to be made in the city. In general terms all the city officials will be changed except the Collector of Taxes and City Clerk. The Marshal of Police and the Chief Engineer of the Fire Marshal of Police and the Chief Engineer of the Pinure Department are under the operations of the Tenure of Office act, and will not be interfered with. All others will be changed. The number of standing committees of the Council will be cut down, and many of the useless ones abolished. The most important change to be made, however, is the consolidation of the Streets, Sewerage and Water departments under one head. A city engineer is to be appointed to control these three. At the meeting to night it is not likely that any radical measures will be taken other than the declaring of the offices of Superintendent of Sewers and Street Commissioner pointed. In accordance with the pre-election pledges of the party a rigid and searching investigation will at once be begun in all the departments of the city government. Mayor Gill will send a short and con-cise message to the Council, but will not indicate, except in a general way, his views of the needs of

the city.

The subject of the consolidation of the Oranges is coming to the front. In the New-England Society of Orange on last Saturday night the Committee on Public Welfare was directed to investigate the subject and make a full report. The New-England Society has a membership of 200 of the most prominent and influential men of the Oranges, and all the reforms and improvements in and about the Oranges have taken place as a direct result of the discussions in the society.

#### NEWARK.

Mayor-elect Lebknecher will take the oath of office at noon to-day, when Mayor Haynes will retire after having served five terms, the longest period that any Mayor of Newark has held office. Mr. Lebknecher will appoint John S. Gibson, late business manager of "The Newark Daily Adver-tiser," as his private secretary, and in the evening will send in a message at a special meeting of the Common Council. This is looked for with great interest, as outlining the policy of the new adminis-

the third of the se measures he pleased Tammany Hall and offended friends of honest government in this city and throughout the entire Commonwealth. He should have signed the three bills.

120,000 A GOOD ENOUGH SALARY.

From The Utlea Press.

The bill taking away the fees from the Sheriff of New-York and giving him instead a salary of \$20,000 a year deprives the incumbent of the sum of \$50,000 heretofore annually received. The bill passed the Legislature in its last hours and has now been signed by the Governor. The salary is

## New=York

is one of the States included in Part V of The Tribune edition of Indexed Atlas of the World just ready. As illustrating the completeness and accuracy of this new and valuable work, we can say regarding the treatment of New-York:

The map of the State is 21x28 inches in size, the scale being thirteen miles to the inch; natural scale 1x23,680. It is printed in six colors and there are laid down on it, with absolute accuracy, the boundaries of sixty counties, the outlines of one hundred lakes, the courses of rivers with a united length of 2,200 miles, railways with a mileage of over \$0.00 miles. By actual count the total number of names of towns, rivers, lakes, etc., on this map is 4,462. All recent railroad construction is shown, including the Lehigh Valley extension to Buffalo, the Adirondack line of the New-York Central, the Middlesex Valley line and numerous smaller extensions.

New-York City is shown by a double-page map, 21x28 inches in size. The new parks in the annexed district, the latest extensions of surface and elevated railroad lines, and all other changes to date, being correctly represented. An inset map shows the lower part of Manhattan Island on an enlarged scale. The map of Brooklyn also occupies a double page, showing the entire diy and much adjacent territory, including all of Fiatbush, on a large scale. The changes in names of streets and avenues, the extensions of surface and elevated railroads and the waterfront improvements are fully represented. Buffalo, third in size of the cities of the Empire State, is shown by a full-page map, 14x21 inches in size.

The index of New-York State names, locates,

The index of New-York State names, locates, The index of New-York State names, locates, gives number of square miles and population of its sixty counties; names, locates and gives population of its 4,290 cities and postoffices, as reported by the census of 1890; names and locates its 54 rivers, 24 creeks, 114 lakes and ponds, 50 mountains and 19 islands. This ready reference index has never before been printed, and will prove a great time-saver in using these new maps.

will prove a great time-saver in using theorem maps.

There are 6.459 words of letter press about New-York. The historical part of the sketch begins with the voyages of Hudson and the first settlements of the Dutch, and summarizes the chief events in the history of the State down to the present date. An interesting description of the physical geography of the State serves as a preface to the account of its agricultural and mineral resources, with illustrated statistics. This is followed by data regarding its manufacturing and commercial interests. The public schools and colleges, the railway systems, canals, charitable, penal and reformatory institutions, public buildings etc., are described, and statistics given showing the growth of population.

ulation.
These facts illustrate the thorough manner in These facts illustrate the thorough manner in which New-York is treated in this new work. All other political divisions of our own and other countries are given space in proportion to their importance as viewed from an American stand-
